Nomination Guidelines

CAHNRS department chairs will identify eligible students, assuring that all graduating students are considered and that those students who graduated the previous May are not duplicated on the current year's list.

In order for Dean's Honor Roll students to be recognized, **departments MUST submit a release form signed by each student to Academic Programs** to allow CAHNRS to publish their names in the CAHNRS Awards Banquet Program, Commencement Program, and other publications. Departments may get individual signatures or create a group form for all students to sign. The following disclaimer may be used: By submission of this form, I grant Washington State University (WSU) permission to publish my name for use in promotional, educational, display or other media publications including newspapers, magazines, television, brochures, pamphlets, instructional material, books, internet, web pages and/or other educational material. Please verify that publication in the CAHNRS Awards Banquet Program does not violate the student's confidentiality (FERPA).

Selection Process

Dean's Honor Roll candidates are identified by department chairs.
